Maybe you know someone who has been the victim of identity theft. We just talked with a client who had this happen and it certainly made us more aware of the need for tangible “real money”. All too often, stolen identity is a financial and emotional nightmare which can last for months or even years. Having physical gold or silver in a place you can get to it can make it possible to keep your purchasing power while the paper and electronic financials in your life are in turmoil.

Also Precious Metals IRA’s can and should be part of most smart individuals retirement portfolio. Yes, you can own **physical** precious metals in your IRA account. Call us to learn more. **800-494-4149**

Consider investing some of your tax return. 2017 looks like a good year for metals!

We are happy to see many of you who have been out of the metals markets for several years returning. Thank you again for your business, your friendship and your referrals. Be sure to like **Resource Consultants Inc.** on Facebook and invite your friends.

All the best,

Linda & Pat Gorman
