Dear Friends,

Stay alert and have a plan! This could just be the best time in over a decade to invest in physical precious metals. Smart investors are taking some profits from the stock market or cryptocurrencies and buying physical. Call Resource Consultants, Inc. 800-494-4149 Did you know that you can roll over any portion of your IRA into a Precious Metals IRA? Call us to see how! 800-494-4149

The stock market and crypto currencies are at all-time highs! Smart investors have made fantastic profits and are taking at least their initial investment out to pay off any debts and invest in things that are tangible. Even Martin Weiss at the Edelson Institute , who has been anything but a gold bug for years, wrote in moneyandmarkets 12/8/17 :~

I just received great news:

The Edelson Institute's cycles charts are now confirming that the ideal time to stake out our first aggressive positions in precious metals could come as early as next week, and DEFINITELY in December!

We showed you how and why in this week's emergency briefing. We gave you our cycles charts that clearly show how gold and silver are getting to form a bottom and getting ready to blast off!

As you read this, the cycles are setting the stage for gold to soar to over \$5,000 per ounce and silver to over \$125.

The profit potential for you — IF you get in on the ground floor — could be truly enormous:

Even if the precious metals only hit ONE-FOURTH of the levels now being predicted by our cycles charts, you can go for life-changing profits in ...

■ **GOLD:** One of the positions we're considering is projected to rise 774%. Another could surge 932%. And a third could soar 1,154%, enough to multiply your money more than 12 times.

■ **SILVER:** A position we're eyeing is projected to rise 735% in value. Another could soar 1,063%. And yet another has the very real potential to explode 1,493% higher, multiplying your money more than 15 times.

■ **PALLADIUM:** The positions we're considering here could post gains of 1,104% — enough to turn every \$10,000 invested into more than \$120,000!
~end insert~

■

Huge profit potential available now!

Market watch by John Mauldin 12/6/17 : Central banks spent the past decade all but forcing investors to buy risk assets and shun cash. That can't last forever.

Gold and Bitcoin are thought by some to serve the same purpose, they are quite different. They both can act as a hedge against the stock market; however that is about all they have in common.

Gold is more than hard money although that in itself is pretty significant. It conducts electricity and can be traded without electricity. Gold does not corrode or rust, alloys well with other metals and can be worked into extremely thin sheets or wires. Of course gold is unrivaled for its natural brilliant luster and shine and is used in jewelry worldwide. Gold is also very important in dentistry, medicine, and aerospace to name just a few of its uses.

We feel that it is vastly important to diversify your portfolio and not to put all your eggs in any one basket. And, if per chance one of those baskets happens to get overloaded with super ripe eggs, harvest and use those eggs before they rot or disaster strikes. At least get enough out to ensure you are ok should the hen die!

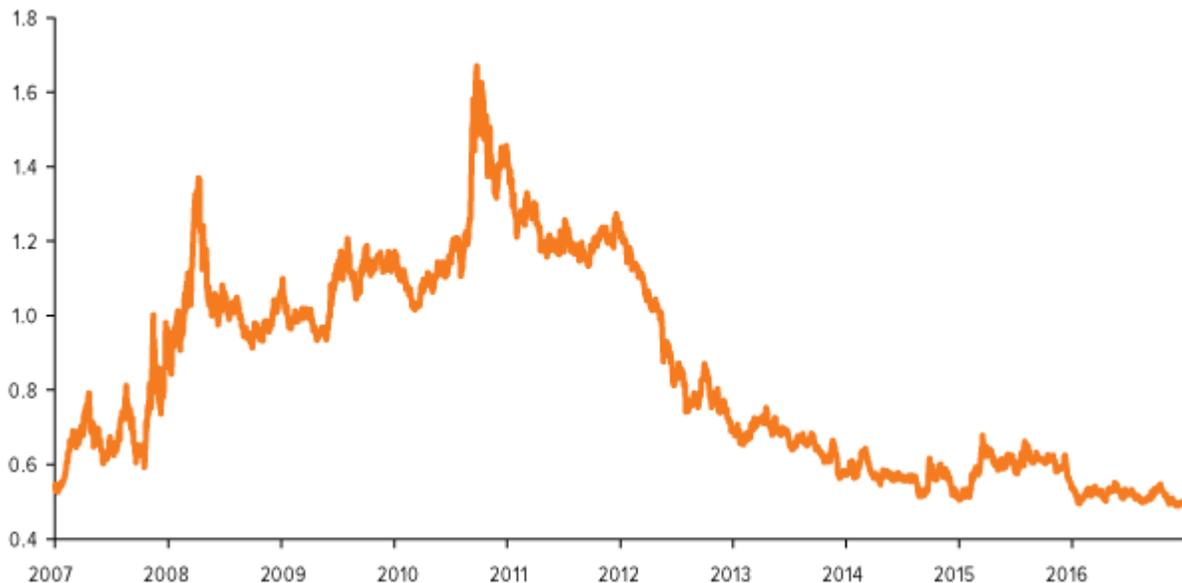

Prior to the last market crash, the wise and the lucky took profits and invested in Physical Gold and Silver. Gold at that time was at around \$700.00 per oz. September of 2007, one year later was at over \$800.00 per oz. By September 2009 it had risen to over \$1000. Per ounce. This continued on till September 2, 2011 when Gold hit an all-time high of \$1,884.20! In 1979, the price for Silver jumped from about \$6 per ounce to a then, record high of \$49.45 (on Jan 18, 1980) which represents an increase of 724%! (You can find this on google.) We are writing this just to show you how quickly and violently the markets can and do fluctuate when the right triggers occur.

The biggest investing mistakes are made from fear or greed. Those who endeavor to sell high and buy low usually do well by taking profits from that which has gone up in value and investing in that which is at a low. Those who lose are the investors who sit on the wall forever from fear of not finding the absolute high or low or out of greed, believe that what they own will only continue to go up in value forever!

Keep in mind that those who follow the herd often times get slaughtered. Right now, while the herd is chasing after stocks and bitcoin, precious metals are at bargain prices!

Production in the mining of gold has declined but global demand from both central banks and the private sector for physical gold is increasing. This coming year of 2018 should prove to be a better year for physical precious metals.

Gold has been tested and known as hard money always. Its value remains fairly stable, purchasing approximately the same amount of goods and services as it did one hundred years ago. Bitcoin is speculation phenomenon. The Fed is beginning to look to ways to discredit and regulate the cryptocurrencies. Bitcoin has been around for nine years and one Bitcoin is now worth 10,000 times the value of the United States dollar. Do you really think they will let this continue much longer without getting their piece?

To better understand how quickly economics and the market can change, we recommend that you read the article by Kimberly Amadeo from The Balance “Stock Market Crash of 2008.

GOLD CATEGORY ONE

INSURANCE

We recommend that backbone of most everyone's metals portfolio be made of gold and silver bullion coins and bars. Whether you're a Gold bug or Silver bug, it is probably a good idea to diversify and have some of both metals. Folks who have been involved in or have been around long enough to observe the markets for a while agree that having 15-25% of their portfolio in hard money is a good safety blanket.

For simple planning, you could think of your physical Gold as your precious metals savings account and your physical Silver as your currency. Because you can hold a lot of wealth in a handful of Gold, You could put it away for times when you might have larger purchases or bills to pay. You silver you might use for the day to day expenses we all have. These Bullion pieces can be bartered saved to pass on to your heirs or sold back to the market should the time come you choose to liquidate. Resource Consultants, Inc. makes a two way market and will help you with your metals purchase or sale.

The U.S. Gold Eagles as well as Canadian Gold Maple Leaf and Austrian Gold Philharmonic are available in 1oz., as well as the fractional 1/2oz., 1/4oz and 1/10oz sizes.

The smaller coins carry higher premiums but if you order at least 5oz at a time, you can get some pretty nice discounts. There are a lot of you who have been taking advantage of the low gold prices and picking up 50 coin rolls of the tenth oz. Gold Eagles and have saved at least \$250 over buying the same quantity piece meal.

SILVER CATEGORY ONE

INSURANCE

The 1oz . Silver Bullion coins such as the Silver Eagles, Maple Leafs, Philharmonics or Silver Rounds still are good choices in rolls of 20 or 25 ounce rolls and an even better value in Mint “Monster” boxes of 500 ounces. 90% pre 1965 U.S. silver coins are still available in \$1000. \$500. \$250. and \$100 face value bags.

Some of you might be wondering how to budget more of your paper funds into physical. Did you know that you can roll over whatever portion you’d like of your IRA into a precious metals IRA account? This gives you the ability to own physical precious metals with money you already have in your retirement account! If this is appealing to you give us a call and we will help you through the process. **800-494-4149**

There are many bullion coins and bars to choose from. Call us for current prices and recommendations and put away as much Gold and Silver as you can budget NOW. 800-494-4149. We have no commissioned sales people here and we look forward to hearing your goals and helping you work towards them.

GOLD CATEGORY TWO

INSURANCE WITH A KICKER

While the modern gold and silver bullion coins were minted to be primarily for the intrinsic value of the metal, the older U.S Gold and Silver coins were minted to be used as currency. The coins we recommend in this category are the \$20 Gold Liberty. We like these coins in XF condition. They are available at a premium just slightly higher than the bullion coins and are cherished for their antiquity and semi-numismatic quality as well as their gold value. We enjoy helping our clients put together date sets of these beauties!.

GOLD CATEGORY THREE

SPECULATION

United States minted Gold coins that are graded by PCGS or NGC and are about 100 years old or more are available in many mint state grades for some of the lowest prices we've seen in ages. If you are able, these next few months could be your best opportunity to acquire some of these collectable, numismatic coins for years to come!

U. S. SILVER DOLLARS

The old U.S. Silver Morgan and Peace Silver dollars are still available. We like them in 20 coin rolls and have them available in circulated as well as BU. Condition. Call for current pricing.

PLATINUM

Platinum coins and bars are also at ridiculously low prices right now. Once you have your "Hard Money" portfolio well on its way, we strongly urge you to pick up a few ounces of this rare and precious metal. Platinum as well as Palladium are becoming more in demand each year and are more rare than gold. Don't miss out on this buying opportunity and add a few ounces of these white metals to your collection of tangible assets.
